

Charlotte County, State of Va. March 24th 1875

This is to certify that I have known W^m J. Carter along while previous to the revolution in Texas, we resided in one mile of each other and I know that he went to Texas in April eighteen hundred and Thirty six, and I know that his Father received Letters from him in the summer after he left, stating that he had joined the army, and was in the Texan Service, and continued to write of that purport while there, He returned back to Virginia in eighteen hundred and Thirty nine during summer, I have known him well ever since, often heard him speak of his services performed in the Texan service, and his interest there in Land claims, and I know him to be the same W^m J. Carter that is now applying for a pension from the state of Texas.
